THE VISION

The Inter Club Golf Tournament: The BORBHAG Cup was started with the goal of popularising the game of Golf and bringing visibility to the golf courses across the region of North East India.

In recent times, Golf has increasingly become a force multiplier – it has not only led to the birth of a golf economy but also provided a boost to industries such as tourism and real estate. This is an opportunity for states to both showcase their infrastructure as well as talent for the country to earn a place at the global platform. The BORBHAG Cup is one such effort and we are working to grow this each year.

This year we have brought one of the core principles of the BORBHAG Group – Partnerships. In 2024, we decided to join forces and the BORBHAG Cup was hosted with the Misa Open 2024, bringing golfers together. We remain thankful to Misa Polo Club for being gracious hosts and partnering with us with a shared goal of encouraging Golf.

Anirudh Goswami,
Founder – The BORBHAG Group

GENESIS

How it came about?

The BORBHAG Cup has been instituted with the goal of encouraging the game of Golf in Northeast India. The Tournament is an effort by a group of Golfers from the North East in their continued quest to popularise the game in the region. In fact, the seeds of this Cup were sown by a budding young golfer from Assam.

Golf is one of the new events in the Olympics and with the right kind of intention and zeal budding golfers from the North East can emerge as top professional golfers of the country.

Objective

Blending heritage with the modern world, our mission is to strengthen traditions and a spirit of camaraderie. This effort has been with a view to build on the potential of sports to contribute to socio economic progress as well as infrastructure development and community building.

OUR JOURNEY

2020 - The Beginning

The journey started when a group of golfers from Assam decided that more needed to be done to encourage the game in the region
