THE VISION

Development of sports in the country is an increasingly important priority. Sports brings wide ranging benefits including improved health & wellbeing, creating livelihood opportunities & contributing to infrastructure development.

Golf's appeal has grown amongst communities with youth taking an active interest. There is much excitement around the game including the Olympics in 2024. This is once again the true demonstration of the potential of the game to bring together diverse communities and build mutual respect and understanding.

The Inter Club Golf Tournament: The BORBHAG Cup is an effort by a dedicated group of golfers in their continued quest to popularise the game in North East India. With the vision of blending heritage with the modern world, augmenting & promoting existing infrastructure; strengthening our traditions & building camaraderie. The BORBHAG Cup was instituted with the vision of contributing to empowering communities through the platform of golf. We are focussed on growing from here as we continue to drive our vision of connecting the Globe to the Districts of India and the Districts to the Globe.

"Caddies and golfers are the ones who will make the future of the sport in the state. Today we have infrastructure but we need golfers to come together and build this further and we may have Olympic golfers from this region in the future...."
